Portfolio: dina-razak00.github.io

Professional Summary

Results-oriented Customer Service Professional with 2+ years of experience across insurance, e-commerce, and hospitality, consistently achieving 95% satisfaction ratings while managing 120+ daily interactions and maintaining 100% documentation accuracy under strict SOP and audit requirements. Background in Medical Laboratory Technology contributes analytical precision and hands-on experience following QA protocols. Completed IT Specialist – Python training (Pearson) and currently building software and game QA skills through self-directed Unity game development, including identifying and resolving functional bugs in a published portfolio project. Combines strong client-facing communication with a growing technical testing foundation, suited for roles requiring both attention to detail and clear issue reporting.

Core Competencies

Customer Relationship Management (CRM) • Issue Resolution & Escalation • First-Call Resolution • De-escalation • Customer Retention • Quality Assurance & QA Protocols • SLA Compliance • Root-Cause Analysis • Bug Identification & Reporting • Functional / Manual Testing Fundamentals • Unity Engine (Beginner) • Basic C# Scripting • Python (Beginner) • Debugging & Error Handling • Unit Testing (unittest) • Regression Testing • Playtesting • Game & Narrative Design • AI-Assisted Development • Git / GitHub • Documentation Accuracy • Data Entry • Microsoft Office • Multi-Channel Support • Active Listening • Problem-Solving • Bilingual: English & Malay

Professional Experience

Operations Service Delivery (US Insurance)
March 2026 – July 2026

Resource Pro • Kuala Lumpur

- Executed full-cycle US insurance operations — including policy data extraction, verification, data entry, and modifications — following standard workflows with consistent accuracy across English-language systems
- Performed quality checks against completed work to catch inaccuracies and inefficiencies before submission, supporting process improvements
- Interpreted client requirements accurately and applied SOPs to deliver high-volume insurance tasks within tight deadlines, maintaining quality across all submissions
- Tracked task progress and time allocation with precision, flagging discrepancies for correction
- Managed professional English correspondence with clients, responding to requests promptly and resolving operational issues to maintain service continuity

Customer Contact Analyst
Jul 2024 – December 2025

AIA Malaysia • Kuala Lumpur

- Managed 120+ daily customer interactions via phone/email, maintaining 95% satisfaction rating
- Processed 50+ guarantee letter inquiries weekly with 100% documentation accuracy for insurance claims
- Maintained client records in CRM ensuring audit-ready compliance and data integrity

- Resolved escalated complaints through root-cause analysis, identifying underlying issues to improve customer retention

Customer Service Representative **Feb 2024 – May 2024**
Transcosmos Malaysia • Lazada E-Commerce

- Delivered timely support for order inquiries, tracking, returns, and payment issues
- Educated customers on platform policies and self-service tools, reducing repeat inquiries
- Escalated complex cases with detailed documentation for efficient first-call resolution

Customer Service Associate **Apr 2023 – Jan 2024**
Denave Sdn. Bhd. • OYO Hotels

- Managed guest reservations, modifications, and cancellations maintaining service excellence
- Coordinated special requests with hotel operations, ensuring seamless guest accommodations
- Handled multi-channel communication via phone, email, and live chat

Laboratory Technician Intern **Jun 2022 – Sep 2022**
Prima Lab Puchong Sdn. Bhd.

- Executed pre-analytical testing with 100% accuracy: specimen barcoding, centrifugation, data logging
- Generated analytical reports using Laboratory Information Systems (LIS) per QA protocols

Certifications & Badges

IT Specialist – Python (Certificate of Completion) **Aug 2026**
Issued by Pearson • 5-Day Training Program • Credential ID: 2026-ITS26079
Coursework: Python data types, flow control, file handling, error handling & debugging, unit testing (unittest), standard modules

Unity Essentials Pathway **2026**
Issued by Unity Technologies • Foundational Level
Credential: learn.unity.com/u/6a27b5aaedbc2a15ead9e361

Game Development & QA (Self-Directed)

Hey Jane! — Psychological Horror Game (Unity 6) **2026**

- Created an original 7-chapter psychological horror game set inside a simulated 2003 desktop, with working messenger, email, journal, web browser, photo, and file apps
- Wrote the full story and all dialogue, and created or art-directed the pixel art, illustrations, and in-game video (hand-drawn and AI-assisted)
- Directed development with an AI coding assistant: defined each feature, wrote the requirements, and reviewed every change in Unity
- Tested every build chapter by chapter and reported functional bugs with clear reproduction steps, including keyboard input triggering unintended UI actions, videos rendering black, overlapping notifications, and unresponsive key input
- Ran automated smoke tests across all chapters and re-tested fixes before each release (regression testing)
- Published to Unity Play (WebGL) and built a standalone Windows version; added a content warning and support helplines (Malaysia, US, international)

Portfolio: play.unity.com/en/games/26f2dbdd-0545-4bc7-b43a-03a3aa4c2563/hey-jane

Unity Essentials Pathway — Project Work **2026**

- Completed the official Unity Essentials Pathway, gaining hands-on proficiency in the Unity Editor, GameObjects, basic C# scripting, 2D/3D physics, and UI systems
- Designed, built, and published an original portfolio project, “Project Cloud Nine,” to Unity Play, featuring multiple 2D and 3D scenes, interactive objects, and a custom day/night lighting script
- Identified and resolved functional bugs during development, including a script compilation error, a case-sensitivity reference bug, and an oversized collider causing an invisible-wall blocking issue
- Performed iterative manual testing of triggers, UI elements, and gameplay mechanics across each build prior to publishing

Portfolio: play.unity.com/en/games/17d52140-fad4-40cf-8eef-43e1c3bfe3f6/project-cloud-nine

Education

Diploma in Medical Laboratory Technology **Mar 2023**

- Clinical Placement GPA: 4.00 | Specialized in Clinical Diagnostics & Laboratory Procedures
